## Odd Fellows Celebration To-Day.

To-day is the 56th anniversary of the establishing of the order of Odd Fellows in the United States. It is to be celebrated in grand style at Reno. The Odd Fellows Hall in that city will be dedicated to-day. Special trains of cars are arranged for the accommodation of participants. Of what is proposed to be done in Virginia City the Enterprise informs us as follows: "The excursion of the Odd Fellows to Reno on the 25th and the celebration and ball there are certainly to be grand affairs. They are being made the theme of conversation by very many besides the brethren and a large turnout from this place will be the result. Last evening a meeting of Nevada Lodge of Knights of Pythias was held, at which, also, the members of Lincoln Lodge were well represented. The meeting was to consider an invitation which had been extended to the Knights of Pythias generally to participate in the excursion and celebration. The invitation was accepted. Everything now is prepared. The train has been chartered, with accommodations for the Sir Knights also, and those of that order whose names have not been taken and who desire to attend are requested to pass their names in to Kierski & Co. immediately. A fine band of music has also been engaged, and if there ever was a big time there will be one in Reno Thursday. The train will leave here at 7:30 in the morning, making a rapid run to its destination, and only stopping to take on those who wish to join in the celebration and who live along the line of the road. At 5:30 the train will start back, but Mr. Yerington has kindly consented to make the excursion tickets good for the lightning express next day, so that all who wish to remain and attend the ball in the evening can do so. Thus it will be seen that every arrangement is perfected. It only remains now to participate and be happy."

Mr. John Q. Moore left here last night for his coal mine near Verdi. That man will have coal or an anthracite of a rough time. Bituminous four dollars he will!

There are in Colorado over fifty peaks which rise more than 14,000 feet above the sea level. Bianca Peak, in that State, the elevation of which was determined last year by Hayden's survey, is probably the highest point within the limits of the United States, being 14,464 feet above the level of the sea.

An Omaha man is doubly in trouble. He deserted his wife to elope with a girl, and the wife is chasing him. Then he deserted the girl, and she is chasing him. The chasers have joined in the pursuit, and he fears the worst if they catch him.

A Western editor says there is no use talking—women can't write as powerful and interesting novels as men. "There's George Eliot, for instance," he says. "Where is the woman who ever wrote so strong and popular novels as that gentleman?"

General Ignatief received a salary of \$9,000 while Russian Minister of Constantinople, and had twenty-one functionaries under his control.

## Notes and Queries.

The Supreme Court heard the arguments in the appeal cases of Harrington, convicted of murder, and Johnson, manslaughter, yesterday. Harrington killed a man in Virginia named Sullivan and is under sentence of death for the crime. Johnson is now in the State Prison. He was sent from Lander. He used to be a horse manipulator here. Also he is a fighter and hard case generally... Fox has been replenishing his stock of wall paper and getting things in readiness for the spring trade. Also he has been receiving a good many new goods interesting to the housekeeper, the father, the mother, the father-in-law, the mother-in-law and the newly married lady with hope in her confiding young heart. Cousins and second cousins and other relatives may also be suited there with anything from a piano to a bib pin—we believe he keeps bib pins; anyhow, he is a married man and ought to know the value of a complete stock of domestic goods. The Spring races opened yesterday. Lufkin entered the roan colt Harry against the Millard horse, single dash of the planks in front of Capitol Square, for a purse of fifty. Won by Harry by a nose. Hon. C. C. Batterman is in the city. He returned from his Odd Fellow visitations through the Eastern counties a day or two ago. He says it is distressingly dull everywhere, but that Austin seems to be enjoying a quiet and healthful prosperity of its own.... The weather is behaving so nicely just now it seems a pity to disturb its equanimity by putting it in the papers; but the fact is everything is so excessively dull that even the mildest moonshine or the least possible ray of star-light is too much to be lost.

Business has so slackened in all directions that the V. & T. management have found it necessary greatly to reduce their expenses, and with this view, they have discharged nearly all their machine and car-shop and foundry hands... Stocks were so so yesterday; and so so is not what the hopeful stocker wants.

## Snow in Hope Valley—Stage Stable Burned, etc.

The following letter from Abe Richey came to hand yesterday afternoon:

Woodford, April 24.

EDITOR APPEL: The weather is very rough here. It is snow, rain and sleet. The snow fell six inches here last night and is snowing all day light, but is melting off about as fast as it falls. To-day the snow in the mountains in Hope Valley is about two feet deep—or new snow; the old snow is all gone.

I learn by the stage driver this morning that the stage barn of J. W. Haines & Co. was destroyed by fire last night with the feed, and three horses burned to death. They saved one horse and the coach. The harnesses are all lost. The fire started about 10 o'clock. The driver went into the stable with his stock and put up the team and went down town to get his supper. He started back about one hour after and as he went out of the hotel he discovered the barn on fire. It is supposed to be the work of an incendiary.

Yours, in haste, ABE RICHEY.

## TELEGRAPHIC.

Detroit, April 24.—James E. Scripps, editor of the Evening News was to-day found guilty of libel in charging Judge Reilly of the Circuit Court with being seen in flagrant delictu with a female client, and damages of \$5,000 given.

Springfield, Ga., April 24.—George Williams, colored, was executed to-day for killing his step-child by beating and roasting.

Memphis, April 24.—A salute of thirty-eight guns, for the restored Union, was fired at 4 o'clock this afternoon, followed by a presidential salute of twenty-one guns, ex-Confederate and ex-Union soldiers participating.

Chicago, April 24.—The Tribune and Times both started correspondence to Europe to-day for the purpose of securing special reports from the scene of conflict.

Washington, April 24.—A letter received here from New Orleans says that McVeigh, one of the Louisiana Commissioners and a Republican, expressed his opinion there that he was satisfied, as the result of his investigation, that Tilden and Hendricks carried Louisiana in November last by a fair and decided majority.

Orders have been issued to remove a company of the Second Artillery from Morgantown, North Carolina, and another company from Raleigh to Washington, D. C., to take the place of the two companies of the Third Artillery recently ordered to New York harbor.

There was excitement in the Treasury Department to-day, owing to the rumor of the proposed appointment of a new Commissioner of Internal Revenue and other important changes.
